

As announced earlier today, non-essential employees will work remotely for the week of March 23-27. The IT department is available to assist with your transition to working remotely.

We've put together an [Employee Remote Access site](#) that should answer most of your questions about connecting to Lipscomb resources from off-campus as well as some tools that will help you keep in contact with your department or team.

Make sure you take home any equipment and materials you may need in order to work remotely, and don't forget to take your power adapters and any cables you may need.

If you have questions or need assistance, please email our Help Desk at helpdesk@lipscomb.edu or call 615/966-1777.
